In the box below, please describe your research goal for which you wish to have the Research Plan prepared. Think of this box as the "wish" box. Please be as precise as possible in describing your research goal. The typical Research Plan will usually provide sufficient information to trace up to three generations of at least one line of ascent. If you wish to have one generation of three distinct family lines traced then please so advise and a plan will be prepared on that basis for you.
